

Cookies Policy

The pages on the website (<https://www.mortonwaters.com>) are published by Morton Waters Communications Ltd.

When you visit our website, we use the cookies that are described below. The information that is collected by cookies on our website is used to analyse the use of our website to help guide improvements and to improve functionality of our website. We also use certain tracking cookies, some of which link to social networking sites like Facebook and Twitter and these may contain information personal to the individual visitor.

By using our website, you agree that we can place these types of cookies on your device.

A cookie consists of information sent by a web server to a web browser, and stored by the browser. The information is then sent back to the server each time the browser requests a page from the server. This enables the web server to identify and track the web browser.

We may use both 'session' cookies and 'persistent' cookies on our website. We may use the session cookies to keep track of you whilst you navigate the website. We may use the persistent cookies to enable our website to recognise you when you visit.

Session cookies will be deleted from your computer when you close your browser. Persistent cookies will remain stored on your computer until deleted, or until they reach a specified expiry date.

We use Google Analytics to analyse the use of our website. Google Analytics uses cookies to help the website operators (us) analyse how users use our site. Google will use this anonymous information for the purpose of evaluating your use of the website, compiling reports on website activity, including the number of visitors to the website, where they have come to the website from, the pages they visit and the length of time they have spent on the website, for ourselves and other website operators and providing other services relating to website activity and internet usage. We use these reports to improve the way our website works. Google may also transfer the information collected by the Google Analytics cookie to third parties where required to do so by law, or where such third parties process the information on Google's behalf. Google will not associate your IP address with any other data held by Google.

Most browsers allow you to reject all cookies, whilst some browsers allow you to reject just third party cookies. For example, in Internet Explorer you can refuse all cookies by clicking 'Tools', 'Internet Options', 'Privacy', and selecting 'Block all cookies' using the sliding selector. Blocking all cookies will, however, have a negative impact upon the usability of many websites, including this one.
